About Me

I'm a Computer Science undergraduate with hands-on experience in web development. I've built and deployed web applications that focus on user experience and functionality. I'm looking to join an organization where I can contribute to real-world projects, grow my skills, and be part of a collaborative development team.

Education

BSCS, SZABIST University, Islamabad	2021 – 2025
ICS, Roots International, Islamabad	2019 – 2020
O-Levels, The City School, Islamabad	2018

Skills

Frontend Development: React.js, Tailwind CSS, Bootstrap, HTML, CSS
Backend Development: Node.js, Express.js, MongoDB, Firebase
Full-Stack Framework: MERN Stack (MongoDB, Express.js, React.js, Node.js)
Programming Languages: JavaScript, Python
Version Control & Authentication: Git, Auth0

Work Experience

AI/ML Intern, ITSOLERA *July 2024 – Sept 2024*

- Developed machine learning models, improving prediction accuracy by 20%.
- Conducted data preprocessing, EDA, and model building for multiple AI projects.
- Enhanced AI-based detection of bot profiles, reducing false positives by 30%.

Projects

Wham Bam Burgers | Live Demo | GitHub *React.js*
An online fast food ordering system with full admin control.

- Created a fast food ordering site with cart and order placement features.
- Developed an admin panel to manage menu items and update order statuses.

Watchlist Diaries | Live Demo | GitHub *MERN, Firebase*
A personal tracker and community platform for sharing TV show and movie reviews.

- Developed a full-stack app to display personal reviews and support user-submitted ones and Integrated Auth0 for secure user authentication.
- Implemented RESTful APIs for managing user-submitted wish lists.

Extracurricular Activities

Microsoft Learn Student Ambassadors (MLSA) *SZABIST, Islamabad*

- Conducted a web development workshop on React.js to introduce students to frontend technologies.
- Served as a Creative Team Leader, managing design and promotional content for campus events.
